Facebook "Fan Page Triad" Method by Roger Hall

Here's a very powerful new method I've developed that you can harness to promote almost anything you want, using;

- a single Facebook Fan Page
- a news release that will get listed in Google News (costs \$30 or less)
- Google organic search results

First off, here's LIVE PROOF this newest Facebook Ad Detective method actually works;

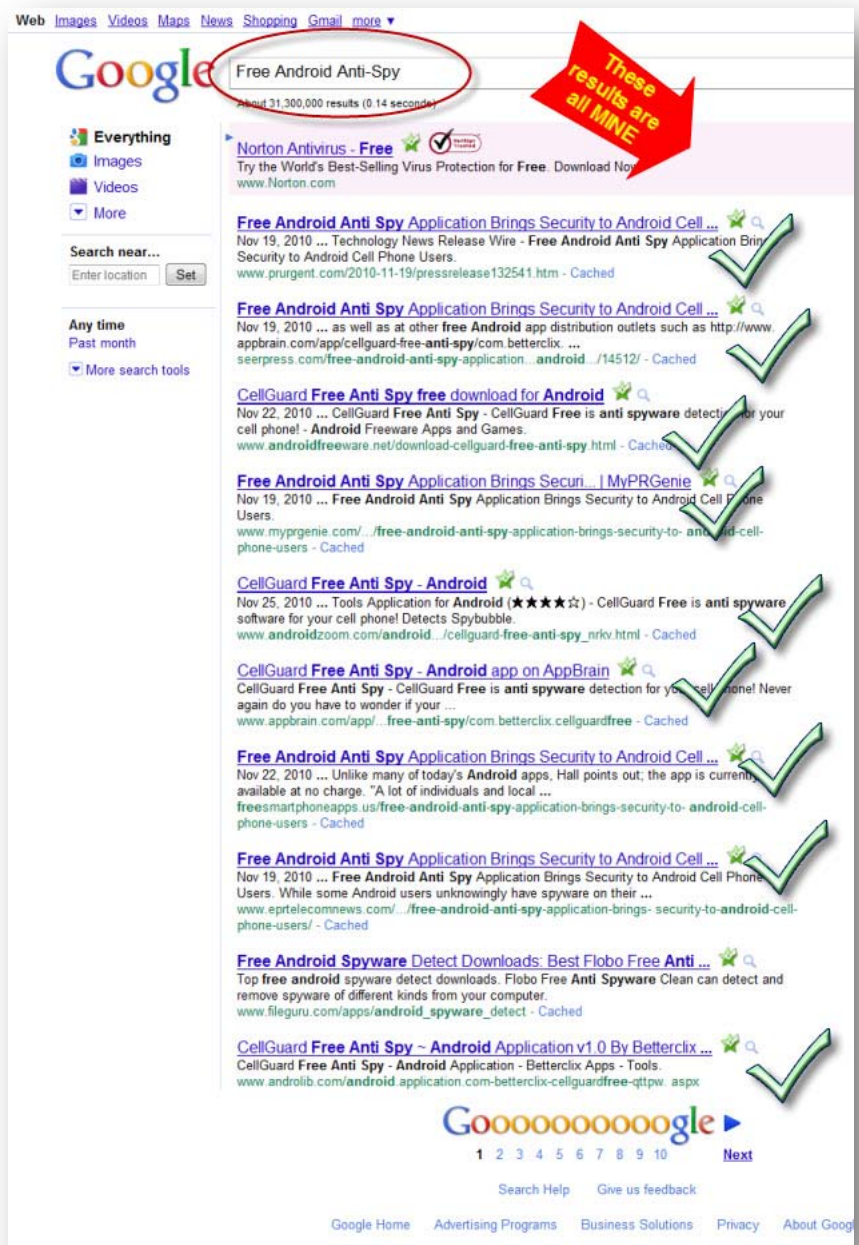

Take a look at these current Google search results for the keyphrase; "Free Android Anti-Spy". This is a widely used search in Google and as you can imagine, with the exponential growth in Android apps, it's worth a lot to have even one or two listings on the first page of Google.

But here, I have achieved 9 out of 10 search results are mine, using this method (even though there are over 31 MILLION search results).

(Android apps are part of my business and I believe this keyphrase will be worth a lot, going forward)

With this many organic search results on the first page of Google, it's going to take a lot for others to knock me off the first page.

Please go to next page...

Here's how I did this, step-by-step (and how you can do it too);

STEP 1. I created a fan page on Facebook, on the subject I wanted to gain traffic. In this case, it's a fan page on the subject of defenses against spyware on Android phones;

Here's a live link, if you want to see for yourself, what I did;

<http://www.facebook.com/pages/Is-Your-Cell-Phone-Bugged/117507101647627>

This gave me a Facebook fan page I could use in my news release, to send traffic to that came across the release in Google news, organic search results and more.

STEP 2. Next, I created a news release and launched it for \$30 on www.PRurgent.com (they are the best and lowest cost for almost guaranteed results for inclusion in Google News. **TIP: Make sure you use the keyphrase you want to rank for, in the title of the news release.** Here is the live example of the release I created;

<http://www.prurgent.com/2010-11-19/pressrelease132541.htm>

Please go to next page...

STEP 3. I pinged all the pages I've mentioned above, including the news release using www.pingomatic.com and www.ping.fm (plus some other special tools I'm preparing to show my Facebook Ad Detective members how to use).

That's pretty much all there is to it! Now, this works particularly well for Android apps (because the way Android app links spread is VERY powerful... Google really favors the established app distribution system that's been spawned). But I'm also using the TRIAD method in other markets... and it works like GANGBUSTERS in those markets as well. **I'm convinced it will work for you, too,** in your market.

So, I've shown you the Google organic search results using this method... but what about the *financial* results?

Here's a screen shot from one of my Google Checkout accounts, below. Note the hundreds (approaching thousands) of sales, all due to organic search results using the FREE Fan Page TRIAD method (each one of the lines below is a \$2.87 conversion, processed automatically by Google);

How to process an order: 1. Review order 2. Charge the cus

| Order Number | Total | Delivery | Charge | Ship |
